

CEREBRAL PALSY WHEELCHAIR HANDOVER TO BABY SASHA- REPORT

Date: Wednesday, 18 June, 2025

Location: Capital Centre Medical Clinic & Polemum Centre for children with special needs (Bwaise)

Recipient: Nalwoga Sasha (9 years old)

Parent/Guardian: Nalubega Alice (Mother)

Background:

Baby Sasha, a 9-year-old girl living with cerebral palsy, was provided with a specially designed wheelchair to enhance her mobility and independence. The wheelchair was procured through Capital Centre Medical Clinic & Polemum Centre for children with special needs, with the aim of improving Baby Sasha's quality of life.

Handover Ceremony:

The wheelchair handover ceremony took place at Capital Centre Medical Clinic & Polemum Centre for children with special needs in Bwaise. The event was attended by Dr. Assimwe Ambrose, Kyazike Jane N, Ms. Alice Nalubega and two staff from the clinic who came together to celebrate this significant milestone in Baby Sasha's life. Alice, Baby Sasha's mother, expressed her heartfelt gratitude for the wheelchair, highlighting how it will positively impact her daughter's daily life.

Wheelchair Specifications:

The wheelchair provided to Baby Sasha is specifically designed for children with cerebral palsy, featuring:

- Adjustable seating for optimal comfort and support
- Durable construction for long-lasting use
- Easy maneuverability for enhanced independence

Impact:

The provision of this wheelchair is expected to significantly improve Baby Sasha's mobility, allowing her to participate more fully in daily activities and social interactions. This gift will undoubtedly enhance her overall well-being and provide her with greater independence.

Closing Remarks:

The handover ceremony concluded with a special appreciation by Dr. Ambrose to Kyazinam Foundation's love for humanity. Alice and Baby Sasha were overjoyed with the new wheelchair, and it is anticipated that this donation will make a lasting positive impact on their lives.

Recommendations:

To ensure the wheelchair's longevity and Baby Sasha's continued mobility, regular maintenance and adjustments should be performed as needed. Additionally, ongoing support and resources should be provided to Baby Sasha and her family to maximize the benefits of this wheelchair.
